

To our Friends and Neighbors of Harrington,

On Sunday, April 30th, the membership of Harrington Golf Course was urged to come to a meeting. At that meeting, the Directors predicted that our financial situation was so dire that without additional revenue the bills could not be paid after August 1st.

Not only did members come to show their concern and support, but also, friends from the community. It was input from the Chamber of Commerce and others that opened our eyes to the importance of our golf course. It is not only a source of pride for its golfing members, but also to non-golfers who understand its importance to the community and surrounding area.

Members at that time were asked for additional funds over and above their regular dues, and even that will not be enough to make it possible to keep up with our aging equipment, supplies, and payroll.

And so now we are reaching out to you. With your help we can come closer to reaching our goal to keep the course "alive and well" for all our children and grandchildren. With your \$\_\_\_\_\_ donation, to become a "Friend of the Course" you will have the opportunity to purchase "funny money" that may be used at the clubhouse. Together we are saving our much acclaimed golf course and will continue to bring much needed income and interest to our community. *Thank you for your consideration.*
